

On your journey to school...

remember the pavement is for walkers.

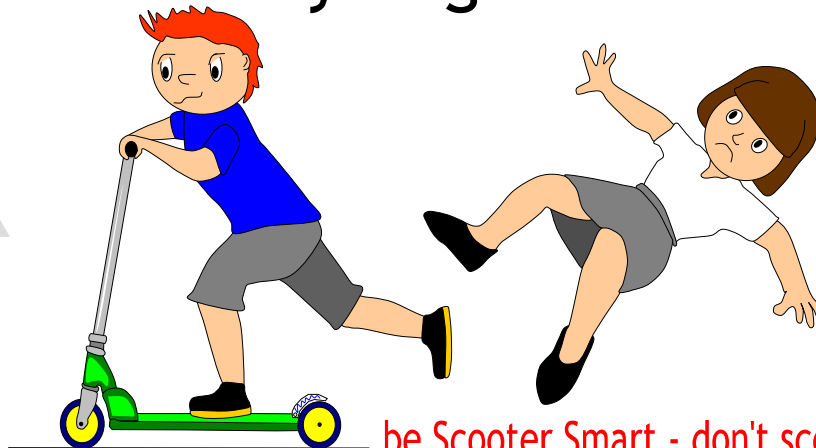

Look out for car doors opening, drive ways, and wheelie bins too!

Be Scooter Smart - slow down for other people.

Walk to the pods with your scooter and park it there. Locking your scooter to the pod will help to keep it safe.

When you get to school...

be Scooter Smart - don't scoot around the playground!

When you get to the kerb, stop and stand Scooter Smart. Look and listen for traffic. When it is safe to go push your scooter across the road.
